	Action required.	
	Locked	

Manual Door Handing

If needed, the door handing process can be initiated manually. This is useful if the lock is being

Network Reset

Network Reset will delete all Wi-Fi settings, Bluetooth pairings, user associations, and remove the lock from the account.

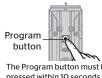

1 Press and HOLD "A" for 10 seconds. You will hear 1 short beep and see an amber LED.

Note: After 3 seconds, you will hear 1 short beep and see a blue LED. You should continue to hold "A" to enter network reset mode.

2 Release "A."

3 Press and release the Program button to confirm network reset.

The Program button must be within 10 seconds of releasing "A" or the function will time out.

Status LED 4 If successful, you will hear 1 long beep and see a green LED. If

unsuccessful, you will hear 5 rapid beeps and see a blinking red LED. If unsuccessful, repeat from step 1. Successful:

Unsuccessful:

red step 1

System Reset

System Reset will delete all access codes and lock settings including lock handing. The lock will run the handing process at the end of the System Reset.

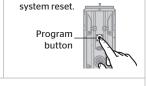

1 Press "A" 10 times. You will hear 1 short beep and see a blinking amber LED to indicate it is in system reset mode.

 $3\ \ If successful, you will hear 1$ long beep and see a green LED, and the reset process will begin. During the reset process, the LED will blink green/red a few times and will beep when complete.

If unsuccessful, you will hear 5 rapid beeps and see a blinking red LED. If unsuccessful, repeat from

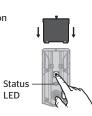

Unsuccessful: Successful:

Factory Reset

Factory Reset will delete all Wi-Fi settings, Bluetooth pairings, user associations, remove the lock from the account, and reset all lock settings including handing.

1 Remove battery pack. 2 Press and HOLD the Program button while reinserting the battery pack. Keep holding the button for 30 seconds until the lock beeps and the status LED flashes red.

3 Press the Program button once more. The LED will flash green and red, and the auto-handing process will begin.

4 The latch will retract and extend to learn the orientation

of the door. The LED will flash green if auto-handing is successful or red if autohanding is unsuccessful.

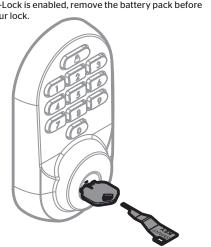

Troubleshooting

A complete Halo Keypad Programming and Troubleshooting Guide is available at www.weiserlock.com/halo/support

SmartKey Re-Keying

Re-key the lock to work with your existing key. See the supplied SmartKey Re-key instructions for more information.

Note: If Auto-Lock is enabled, remove the battery pack before re-keying your lock.

Important Safeguards

- 1. Read all instructions in their entirety.
- 2. Familiarize yourself with all warning and caution statements.
- 3. Remind all family members of safety precautions.
- 4. Protect your user codes.
- 5. Dispose of used batteries according to local laws and regulations.
- **WARNING:** This Manufacturer advises that no lock can provide complete security by itself. This lock may be defeated by forcible or technical means, or evaded by entry elsewhere on the property. No lock can substitute for caution, awareness of your environment, and common sense. Builder's hardware is available in multiple performance grades to suit the application. In order to enhance security and reduce risk, you should consult a qualified locksmith or other security professional.
